ABOUT FIGO

1000 IDEAS. 100% COMPETENCE. 1 PARTNER.

Since its founding over 15 years ago, Figo's objective – then as now – has been to design, with creativity, expertise and a market-orientated company strategy, contemporary implementation solutions that encompass concept, construction, and turnkey project ... all from the same source

We treat your company philosophy and projects with great respect and therefore proudly execute your values, concepts and desires.

Climate change, digitalization and accelerated structural change are growing problems in our society. This is increasingly influencing the use of real estate and commercial space.

As a specialist for existing properties, we support owners and tenants in successfully meeting these challenges. Our team is made up of Architects, engineers, designers, and craftspeople who assist you with all the competence and experience at their disposal.

Reinvent your spaces.

CONCEPTS

EVERY SPACE IS AN OPPORTUNITY.

Can you touch values? Or see conviction? You can - in Figo's concepts. Figo designs authentic spaces that make your identity and image come alive – visually, sensually, emotionally. We create concepts that can be felt, that invite you to look more closely, that are fresh and unique. Concept, form, and colour merge into a single functional unit. Our experience from hundreds of exciting and successful projects helps us achieve this.

Experience it for yourself.

DESIGN & PLANNING
HAND IN HAND.

Creativity needs a good plan. With our planning department, we can offer all classic architectural services (HOAI LPH 1-9) for holistic brand staging at the Point of Sale. Every project comes with its own challenges and requires a conscientious analysis and overall planning.

During the entire planning and execution process, Figo serves as your central contact and provides advice and assistance along the way.

Discuss. Coordinate. Optimise – always with an eye on the time plan. We know the consequences little errors have in the construction process. Or a missed delivery. That's why we commit all of our experience and diligence during project management.

We handle quality and cost control, coordinate all processes and preparedecisions for you. We will successfully manage your project through to completion, constantly focusing on our shared goal. This allows you to fully dedicate your time to your core business.

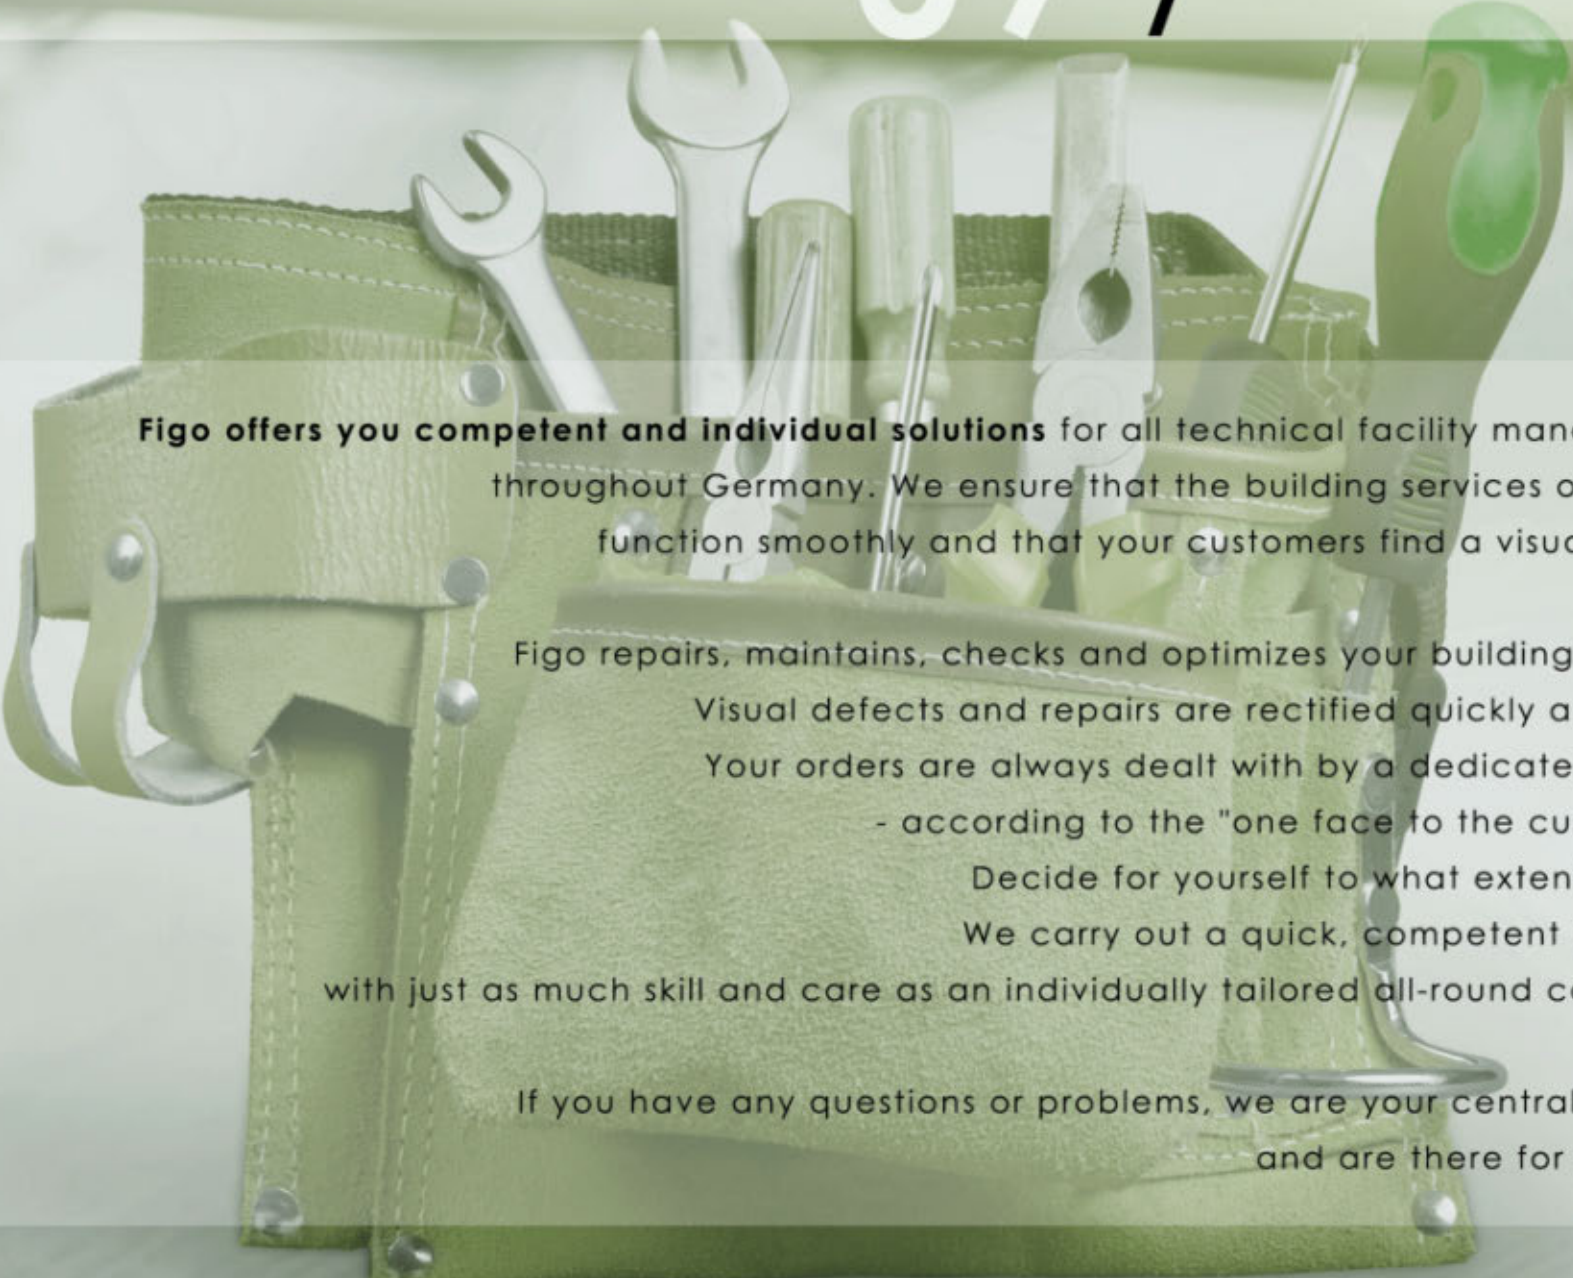

Creative planning requires structured implementers. Together with our builders and long term partner companies, our experienced construction managers will give you a sense of security in knowing that all construction measures are being carried out in the best possible manner. Practical, competent, and careful.

From the first draft through to the last detail.

To make sure your success rests on a stable foundation.
Whether flagship stores, offices, or a café around the corner.

A single shop or rolling out 100 shops per year.

Figo offers you competent and individual solutions for all technical facility management services throughout Germany. We ensure that the building services of your salesrooms function smoothly and that your customers find a visually flawless store.

Figo repairs, maintains, checks and optimizes your building services systems. Visual defects and repairs are rectified quickly and professionally. Your orders are always dealt with by a dedicated contact person - according to the "one face to the customer" principle.

Decide for yourself to what extent we support you:
We carry out a quick, competent individual service with just as much skill and care as an individually tailored all-round carefree package.

If you have any questions or problems, we are your central point of contact and are there for you immediately.
